

Electric & pneumatic winches

Pfaff-silberblau and Yale winches are versatile tools made to lift, lower, pull or position loads.

All winches are characterized by high-quality components and drive motors, irrespective of the design as standard or customized version. All products are differentiated by long lifetimes and a reliable operational safety.

Pfaff-silberblau and Yale winches are available as electric or pneumatic winches.

Capacities between 250 kg up to 7.500 kg make them a versatile tool for a great number of applications: general industry, aviation and maritime industries, construction, theatres and studios, distributors, retailing and trade, furniture and department stores as well as passenger elevation (YaleMtrac).

A modular system with multiple options ensures maximum flexibility in the application.

The electric winch model BETA PROLINE is available also for stages and studios, according to BGV C1.

Selected models can be provided in an explosion protected version.

All our winches are designed according to national and international standards.
