

Push and geared type model HTP and model HTG

Capacity 500 - 20000 kg

The trolley enables the exact positioning or easy traversing of large loads with either manual or powered hoisting equipment.

Features

- It has excellent rolling features due to machined steel wheels mounted on prelubricated, encapsulated ball bearings.
- Adjustable to fit a wide range of beam widths and profiles (e.g. INP, IPE and IPB).
- Adjustments are made by rotating the clevis load bar which also ensures the centred positioning of the hoist in the clevis – no creeping to the left or the right.
- The trolley wheels are designed for a max. beam profile incline of 14 % (DIN 1025 - part 1).
- Trolleys are in accordance with the UVV and machinery directives.

Options

- Rotating hand chain guide.
- Stainless steel hand chains.
- Buffers
- Corrosion resistant version
- Explosion protection
- Locking device to secure the trolley in position on the beam (park position e.g. on ships).

- ! No protection classification as no ignition source when utilized according to intended use.
- Applicable in zone 1, although the protection classification of the utilized hoist has to be considered.
